

Logical:

```
#include <iostream>
using namespace std;
int main() {
    int arr[] = {1, 2, 3, 4, 5};
    int sum = 0;
    for (int i = 0; i <= 5; i++)
        sum += arr[i];
    cout << "Sum: " << sum;
    return 0;
}
```

Syntax:

```
#include <iostream>
using namespace std;
int main() {
    print("Hello World");
    return 0;
}
```
